SOCIAL JUSTICE MINOR

The social justice minor offers students the opportunity to interrogate and think critically about structural inequalities and injustices, and to develop strategies for creating and sustaining an equitable and just world. This interdisciplinary minor introduces students to the complexity of social justice issues and helps them develop an intersectional framework that recognizes ways in which various forms of oppression and privilege interact, and how oppressive systems such as racism and sexism are intricately connected. Minors will be able to recognize inequalities and will gain the skills to address unjust practices in a variety of settings. The minor is especially appropriate for students who anticipate working in advocacy roles in nonprofit organizations, in local communities, or in governmental organizations.

Social Justice minors will complete five courses: three core courses and two electives at the 300 level or above. Minors must also complete an Advanced Community Engaged Learning (ACEL) requirement.
